Abstract not available for CN1085321

Abstract of corresponding document: **WO9407167**

The description relates to a microscope (1) with a mirror housing (3) which can be fitted on the microscope stand (2) for coupling lamp housings (4) via at least four adapters (10). The mirror housing (3) has an adjustable deflection mirror (5) for changing over as desired between the adapted lamp housings (4) and is fitted inside with a separate chamber (11) for the current/voltage supply (6) of the lamp housings (4). The mirror housing (3) in the form of a one-piece component is secured to the rear surface (8) of the microscope stand (2) via heat insulators (9).
